

Behavioral Health Services

Community Support Services & Day Rehab Program

provides services for individuals facing barriers in life due to their mental health or substance use concerns. Programs are individualized and strength-based to provide support, advocacy and understanding throughout the individual's path to recovery.

Community Support Services & Day Program will help individuals:

- ✓ Connect with a healthy support system including other community agencies and resources.
- ✓ Establish a relationship with good mental and physical healthcare providers.
- ✓ Develop effective coping skills to manage symptoms related to mental health and/or substance use disorders.
